Improve your use of Hotmail with Hotmail Connector Hotmail Connector is a plug-in that adds an Outlook application to your existing Windows Live Hotmail account. The software is based on .NET Framework and is compatible with the following versions of Microsoft Windows: Windows XP, Windows Vista and Windows 7. Apart from being able to add contacts and e-mail, Hotmail Connector makes it easy for you to send and receive instant messages. The software does that by importing your Windows Live Messenger contacts into Outlook contacts and even uses the picture embedded in the Messenger contacts from your Windows Live Hotmail contacts. This program is not just an Outlook plug-in, but a cohesive package that brings your Hotmail activities in your Outlook. The application allows you to view and change your Windows Live Hotmail calendar, view or update your tasks, view or change your e-mail send queue and much more. Hotmail Connector allows you to connect to your Hotmail account and view your calendar, address, contacts and e-mail simply by entering the Hotmail address into Outlook. No additional registration or log in process is required. Outlook Email & Calendar Integration The third party plug-in allows you to access your Windows Live Hotmail account directly from your Outlook calendar. This is an easy way to manage your schedule and control your life. You can view and organize your appointments, create to-do lists and even manage your e-mail inbox. The Hotmail connection makes it possible to check your e-mail while you are on the move. The application also integrates your Hotmail contacts with Outlook contacts. The integration helps you save time and see who has sent you an instant message right away. You can also manage your IM contacts and view their information. Hotmail Connector also allows you to synchronize contacts between the two systems. This makes it possible to transfer your Hot
